A Few Words on Designs

Wallpaper for Windows™ is available in a variety of designs. Which ones appeal to you will depend upon your preferences and decorating style. However, there are six main categories that these designs fit into: etched glass, privacy glass, glass block, stained glass, decorative accents, and faith-inspired glass.

Stained Glass. Stained glass adds beauty to any decor, but for most people its expense keeps stained glass out of reach. Wallpaper for Windows stained glass designs look just like hand-crafted stained glass but at a fraction of the price. This is a wonderful option if you want colorful, beautiful doors for less. Stained glass also comes in a privacy style, which combines the function of privacy glass with the beauty of stained glass.

Etched Glass. Etched glass has the look and feel of expensive frosted and etched glass artwork that elegantly coordinates with most decors. It is very versatile because not only is it beautiful, it also reduces visibility both day and night, whether you have the lights on or off. Etched glass lets the light through but diffuses harsh sunlight.

Privacy Glass. Privacy glass allows light through while obscuring views both in and out. This is a great option for high-visibility areas that require some privacy, as well as areas that yield unattractive views. The level of privacy can be customized with full or partial coverage.

Glass Block. This option has the beautiful look and feel of expensive glass block at a fraction of the price. It works well for glass entry doors and patio doors. Glass block not only has a beautiful appearance, but it can also be used to increase privacy or hide a bad view.

Faith-Inspired Glass. Ideal for both homes and churches, artwork featuring expressions of faith can add both privacy and beauty, and make a elegant statement.

Decorative Accents. Using centerpieces, borders, and corner accents is a great way to give your glass doors a custom-designed, expensive look. And the options are endless!

Entry and French Doors

Decorative Options

Center panels

Give ordinary French doors a new look by partially covering them with Wallpaper for Windows™ decorative panels. Add interest to your doors while still allowing for light and views! You'll enjoy a little privacy, too!

To get this look you will need one 16" by 74" panel per door. Doral, Ritz and South Beach work well for this treatment. You will most likely need to do a little trimming depending upon the size of your doors. Once the pieces are trimmed, center them in the middle of the door. Plan on spending about 20 minutes decorating one door, including trimming and installation.

Centerpieces with accents and borders

Centerpieces add visual interest and allow great views and sunlight to shine through. A centerpiece is an easy and simple way to dress up a door.

No trimming is necessary. Just place the centerpiece in the middle of the door. Want to add a little more decoration? Try matching corner accents or matching borders. The Doral, Naples, and Eden styles work well for this treatment.

If you are using centerpieces and corners no trimming is needed and you can expect installation to take a total of 10 or 15 minutes. You will have to do some trimming if you add borders; allocate an additional 10 or 15 minutes for the project.

Privacy Options

Full coverage

If you are looking for privacy and security, Wallpaper for Windows™ is a great way to get it without compromising good looks. You can cover your entry and French doors with a number of different designs depending upon your taste and preferences.

Looking for something simple? Try the Orleans etched glass design. Looking for something truly awesome? Try the Napa stained glass film with privacy feature. And there is a wide range in between to complement your decor.

The size of your design will depend upon the size of your doors. Expect to spend about 30 minutes on the project, including trimming and installation.

Multi-Pane French Doors

Now there is a beautiful and simple way to decorate and add privacy to multi-pane French doors. Designs are easily trimmed to fit smaller panes of glass. Decorate all or some of the panes to create your own custom look. Each pane takes only a few minutes to install.

Entryways with Sidelights

Decorative Options

Stained glass

Give your front door and sidelight a whole new look with Wallpaper for Windows™ stained glass panels. For minimal cost, you can give your home some serious curb appeal! Stained glass gives a beautiful custom look that lets the light through while adding privacy.

The materials required depend upon the size of your door and sidelight. Trimming and installation should take less than 30 minutes.

Mandalay

Centerpiece and matching sidelight

Create visual interest by installing a centerpiece in the middle of your glass entry door, add extra pizzazz by featuring matching panels on the sidelights.

First center the centerpiece on the door. Trim a panel so that it fits the width of the sidelight. The Eden Centerpiece with a matching Eden panel works well for this treatment. You can also add matching corner accents for more detail.

Trimming and installation should take less than 30 minutes.
