New One-Way Films

Imagine you didn't have to choose between having privacy or living in the dark behind closed blinds.

Now you don't have to! Our cool, contemporary new One-Way Film designs let the light through, while providing you with privacy from those outside. Visibility out is limited, but you can see well enough to see what is happening while enjoying your privacy.

One-Way films are now available in 6 contemporary designs: Pacifica, Line-Up, Lookout, Secure View, Boardwalk and Santa Fe.

Pacifica One-Way Film

The visibility through each is slightly different, depending on the details of the pattern. All of these window films work on the same principle - the frosted design elements (covering more than 90% of your window or door) block prying eyes. And the clear / see-thru parts of the design is for visibility.*

*Visibility can reverse at night through the clear areas. The privacy/frosted areas provide privacy day and night, lights on or lights off.

As with all of our Wallpaper for Windows products, these new films are adhesive-free and easy to apply (or remove, as-needed).
