Decorate Doors (and More) With Big Bamboo

Customers are going crazy for our newest etched glass design - Big Bamboo. Available in both see-thru and privacy versions, Big Bamboo, is the perfect complement to rooms with a tropical, beach, casual, Asian or Oriental decor.

This bold and beautiful design is well-suited for any kind of door: sliding glass doors, French doors, storm doors or entry doors. It's also ideal for shower stalls and larger windows.

The see-thru version decorates without fully obstructing the view (though it does provide a bit of extra privacy). Whereas the privacy window film gives you the privacy you desire without darkening the room.

Big bamboo Etched Glass Window Film could be just the thing you've been looking for to give your bathroom, sunroom or any room a fresh new look!

We here at Wallpaper for Windows have a new favorite Youtube channel (other than our own!) - SPACEStv. SPACES serves up non-stop home decorating ideas - for real people! Whether it's for your old apartment or first home, they deliver inspiration and innovation from top designers, enthusiastic celebrities, and hands-on professionals.

Recently one of their hosts, Tracy Metro, contacted us about using one of our designer window films on their show "I Live With My Mom." Tune in July 10th or subscribe to see how they've worked our product into their latest makeover.

Ichthus Fish: Symbol of

Faith

We're so excited about this newest addition to our religious theme window film collection, the Ichthus or Christian Fish. The Ichthus means 'Christian here' and has been used for centuries as a symbol of faith.

We've used the Christian Fish as an integral part of the leaded glass frame, making the design both elegant and inspiring. When used as a door or window covering, Ichthus symbolizes a simple affirmation of the faith of those inside.

This design is available in a variety of sizes and each size is available in both privacy and see-thru

Ichthus, Christian Fish Symbol (See-Thru)

versions. Our privacy version combines Lite Frost with the leading line grid. It obscures visibility through the glass without darkening your room.

The see-thru version features a leading line grid on a clear film. It allows complete visibility through the glass, plus the benefits of UV protection and energy savings.
