One-Way Films: Modern and Innovative

Introducing our latest innovations: One-Way Films that provide the privacy you need without obstructing your view. You can see out, but they can't look in!

Available in 3 fabulous designs: Sante Fe, Boardwalk and Secure View One-Way Film, each of these patterns allows for a nearly complete level of privacy. Each brings a fresh, modern style to any room.

The visibility through each is slightly different, depending on the details of the pattern. All 3 work on the same principles - the frosted design elements (covering more than 90% of your window or door) block prying eyes.

As with all of our Wallpaper for Windows products, these new films are adhesive-free and easy to apply (or remove, as-needed).
