### Decorative Window Film Replaces Stained Glass.

An innovative line of decorative window films by Wallpaper For Windows is a beautiful alternative to expensive stained glass windows and glass doors.

Although it looks expensive, this adhesive-free film is a very affordable way to give ordinary windows and glass doors the look of decorative glass. "Using Wallpaper for Windows people can decorate windows and glass doors to complement a home's décor and enhance privacy if desired," said Renee Combs, Sales director at EtchArt. "A Wallpaper for Windows treatment can dress a

glass surface in minutes, transforming plain glass into a decorative focus."

Additionally, the decorative window film reduces glare, softens harsh sunlight, and filters harmful UV rays that contribute to fading of drapes, carpets and furniture.

The 8-mil thick vinyl film provides an insulating layer to save energy. "The versatility of Wallpaper for Windows makes it the perfect design solution for today's non-traditional windows," said Combs. "Everything from arched and transom windows to sidelights, French and storm doors, to tub windows and mirrors can be enhanced with the look and feel of decorative glass."

Wallpaper For Windows!™ is an easy do-it-yourself product that any homeowner or renter can apply in minutes. The film is trimmed to size with scissors or utility knife by drawing the desired size or shapes on the backing paper and trimming. To apply, first wet glass with water; next remove film from backingpaper and position on wet glass. Using the included squeegee to remove excess water and air completes the application.

Wallpaper For Windows is warranted against yellowing or fading for 3 years. Regardless of how many years it is enjoyed, eventually it will be time to redecorate and remove the film from the glass. It is even easier to remove this adhesive-free film than it was to apply, simply pull back a corner of the film and peel away from the glass.

Suggested retails of this miracle film range from \$19.95 to \$85 depending on the size of the window or glass door. To see all the available designs and information visit [www.wallpaperforwindows.com](http://www.wallpaperforwindows.com).
